Weekly Weather Report.	
The following are the extremes of temperature during the week ending Thursday, Oct. 24:	
Day	Max. Min.
Friday	80.0 65.0
Saturday	80.0 65.0
Sunday	80.0 65.0
Monday	80.0 65.0
Tuesday	80.0 65.0
Wednesday	80.0 65.0
Thursday	80.0 65.0

Mr. Robt. Bowen went over to Phoenix this week.

Mr. J. M. Ochoa visited Tempe and Phoenix this week.

Parson Whittemore visited Globe this week.

The family of Wm. Clarke are now residing at Beaumont, San Bernardino County, California.

Mr. John Reiss was up from Casa Grande Monday week, and is now in full citizenship by the District Court.

Mr. George Scott returned from Phoenix Tuesday evening, and is now at his home in Dudleyville the following day.

Chairman W. C. Smith came up from Casa Grande on Wednesday to attend the session of the board of supervisors.

Mrs. Eric Moden, daughter of Mr. L. M. Davis, is expected in Phoenix next week from San Francisco. Mr. Moden is now a resident of Phoenix.

Mr. D. H. Snyder came down from Mineral Creek Monday to lay in a stock of provisions. He is developing some very fine mining properties in that section of country.

Misses Lizzie and Mollie McNeil, sisters of Mr. J. B. McNeil, of the firm of Wildman & Co., arrived in Florence Tuesday from South Arizone, New York, to reside.

Judge J. Kibbey, Court Stenographer W. L. Finney, Attorney H. V. Jackson and Colonel Charles Holborn left by private conveyance on Monday, for Globe, where the Judge will hold court.

Dr. A. S. Adler has attained considerable proficiency in photography and the pictures from his camera are excellent. He has taken many views about Florence and has enriched the ENTERPRISE collection by numerous samples.

The new Cottrell press for THE ENTERPRISE is expected to reach Florence to-day and will probably be placed in position in time to print the next issue. So soon as the additional materials ordered reach Florence, the paper will be enlarged.

Mr. James Brash came down from De Noen on Tuesday. He is one of the most energetic men in the country and his heavy freight team are always busy in hauling ores or freights. The country needs more such men as Mr. Brash to thoroughly develop its rich resources.

The Sample mines on the San Pedro have been closed down indefinitely, and Superintendent Geo. H. Barnhart has accepted a responsible position at the Mammoth, which will shortly start up with renewed vigor. A large quantity of new machinery for the Mammoth recently arrived at Tucson, which is a good indication that its owners mean to place the mine upon a sound and productive basis.

Capt. W. W. Strohn, superintendent of the Reymert mines at De Noen, was in town Wednesday. He is pushing matters at the mine in a thoroughly systematic way, and the course of time will bring the developments up to the standard they merit. These properties are among the grandest in the west and under Mr. Strohn's management they are showing up satisfactorily to everybody interested.

Mr. Chas. MacRitchie, of Chicago, has been in town for the past two weeks. He is largely interested in property in this valley, and is one of the owners of the Holland tract and irrigating ditch. Mr. MacRitchie has secured the contract for the construction of the Florence Canal Company's storage reservoir south of Florence, and will soon begin work thereon with an ample force to complete it in time for the farmers below to obtain water for next spring's crops.

The following are the trial jurors drawn to serve during the continued term: R. C. Brown, P. W. Gibson, Geo. Reynolds, F. G. Hardwick, Hugh Chalmers, W. M. Steffy, A. H. Elliott, H. E. McMurry, J. A. Kincaid, W. T. Day, A. J. Jennings, C. Odell, R. L. Rogers, C. H. Neimeyer, W. H. McQueen, O. L. Finch, W. M. Elliott, John Dobson, Jos. Lanigan, W. Kennedy, W. H. Bassett, Felix Le Blanc, A. Dobbie, Thos. McLellan.

Several young gentlemen of enterprise and means in this city have nearly completed their arrangements for the purchase of an eligible tract of land near town, which they purpose subdividing into five or ten acre tracts to sell to actual settlers after improving them. While streets will be laid out, lined with shade trees; fruit trees and vines will be planted and tracts made very attractive for suburban residences. When the fact is taken into consideration that a comfortable living for a family can be easily made on five acres of land the value of such an investment will be better appreciated. The gentlemen having this scheme in hand will not place any fancy prices upon the land, but will sell at a very slight advance upon the cost and rely upon the increase in the value of the reserved lots for their profits. It is a good enterprise and one that will beautify and improve the surroundings of Florence and invite investments from new comers.

Consumption Surely Cured.

To THE EDITOR:—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their names and post-office address. Respectfully,

T. A. SLOCUM, M. C., 181 Pearl St., New York.

Fresh roasted coffee and pea nuts, every day at the Florence Bakery.

## Fr. M. Vekol.

October 23d, 1889.

TO THE ENTERPRISE: Your reporter sends you greetings. Under the effects of the superb weather and gaining strength every day from my frequent rambles over this mountain, I feel it my duty to notify you as to work and progress here. The central figure of the camp to-day seems to be the opening up by vertical and incline shafts, the great silver properties known as the Combination Group. The final outcome of the work when it reaches proper depth will establish no theory, but a practical fact that this great group of mines hugging so closely to the Vekol ore bodies, are so rich in silver metal as the noted line formations of that remarkable camp called Eureka, Nevada. The best wishes of the camp and the verdict of the posted miners and mining men generally is that this new famous group of mines known as the Combination Group will do for the southern county service that will place in employment large numbers of miners and consequently cast abroad its attendant benefits in distributing large sums of money and wages and create a feeling of unanimous confidence in this great district.

## Red Rock.

Mr. N. T. Galloway writes from Red Rock that in due time the camp of the Red Rock Copper Company will be a good town. Mr. White, a practical mining man from Leadville, is the superintendent, and H. K. Cole, the general manager, is from the Calumet & Hecla. Ten miners are worked at present, and two gangs are on the six-inch well being sunk by Mr. John Gardner, of the Tucson machine depot, and which is going on smoothly under the direction of Geo. W. Redman, with M. P. Dodge as chief engineer. Mr. Galloway has charge of the shops. There is some talk of the company taking charge of the Atlas company's smelter and running it. The prospect is good for the speedy sale of the Silver Bell properties, owned by E. N. Fish and "Butch" Klug, and the purchasers are daily expected to arrive on the ground.

Best California and Tempe Flour at the Florence Bakery.

Judge R. E. Sloan and family took their departure on Wednesday for Tucson, which city they will make their home in the future. While the people of Florence are proud of the honor conferred upon him in his appointment as Associate Justice of the Supreme Court, they regret that it necessitates his removal elsewhere. Judge Sloan and his amiable wife are commended to the good people of Tucson as worthy of their highest consideration and esteem.

When the last big load of P. T. Dowling's quartz mill was hauled over the road to Casa Grande, en route to Sonoyta, he took a quantity of lumber along to prevent the wagons from miring down at the point where the Florence canal waste water flows across the road. The board of supervisors considered the expense of this lumber a proper charge against the county and paid for it, and now use it to bridge that crossing.

A little bright-winged sparrow bearing a bow in its hand and a quiver filled with painted darts, mysteriously hints that the recent renting of a cottage and the purchase of a lot of new furniture by Mr. E. P. Drew is not being done for the exclusive benefit of his bachelor chums, but that a pair of bright eyes will soon greet him at its threshold with cordial welcome to his home.

Frank Beeler, an old soldier, 66 years of age, who has been an inmate of the county hospital for some months, was sent to the Soldier's Home at Santa Monica, at the expense of the county, last Thursday. He is growing quite feeble and the "taps" will soon extinguish the light of his taper of life.

A splendid lot of foot-wear has just been opened at Wildman & Co's. Call and see the new goods.

Mr. N. T. Galloway, formerly a resident of Mammoth, on the San Pedro, now has charge of the blacksmith shop of the Red Rock copper company, at Red Rock. He recently returned from a visit to his former home at Eau Claire, Wisconsin, and has with him the sad news of the death of his mother.

A big lot of new goods of all kinds was opened this week by Wildman & Co. Call and inspect them.

Postmaster Miller's requisition for postage stamps fell into the hands of the stage robbers on October 2d, and they have so far failed to honor it. Their postoffice is consequently short of stamps and is compelled to depend upon the neighboring stations pending returns from a new requisition.

In a late railroad accident in Texas, Ben Bible, the engineer, was killed. Bible was formerly a resident of Florence and a son of Mrs. Jeff Brannett, a present resident of Casa Grande.

Fine hats, for men and boys, and hats of all kinds, just opened at Wildman & Co's.

Mr. Wm. Clarke has sent his household furniture to California where his wife and child will make their home, and his house on Main street will be leased for a boarding house.

Dr. Intley and wife, of Richmond, Indiana, have arrived in Florence. Dr. Intley visited this valley last year and has now come to settle here and practice his profession.

Supervisor E. W. Childs was down from the Aravaipa this week, attending the session of the board.

Mr. F. C. Calderon is in San Francisco, purchasing goods for the J. D. Rittenhouse estate.

All the cottonwood trees have been removed from the front of W. C. Smith & Co's new business block on Main street, and a fine view can now be had of the beauties of the handsomeness of that substantial building, now approaching completion.

Architect H. R. Leonard came over from Phoenix this week. He submitted plans for the new court house to the board of supervisors.

Mr. J. P. Carson, the De Noen merchant, was in town Wednesday.

For Sale.

A good house and lot in a splendid location, corner of Eighth and Florence streets, two blocks east of the public school house. Lot 125-125 feet. The house contains eleven rooms, five of which are finished. The rest are under roof and partly finished. Inquire at THE ENTERPRISE, Florence, Arizona.

## Route for Railroad.

SILVER KING, Oct. 22nd.

EDITOR ENTERPRISE:—I have observed considerably railroad talk throughout the columns of your paper lately, but have failed to note any mention of the plan I propose. I would have the Southern Pacific change their line from Tucson and build to Florence, thence to Mesa City, Tempe and Phoenix and down the river to Gila Bend, thereby traversing the finest belt of agricultural land in the world. I think the company can be easily induced to make this change for several reasons: First, the heavy grade about twenty miles east of Gila Bend requires an extra engine or "pusher" to help all freight trains over the divide, which will be avoided by the change I suggest. Second, their line would traverse 120 miles of the most fertile country in Arizona, which I might say is the garden spot of the world, instead of passing over a sandy desert. Third, the new route would pass through the capital city of Arizona and an increase of freights would be inevitable.

Maricopa county has voted a bonus of \$4,000 per mile to aid any good responsible railroad company that will build to Phoenix, with an especial desire that it be a transcontinental road. Now Pinal and Pima counties should do likewise and provide a free right of way and depot grounds and I will pledge you my word that the road will be built. Some people may object to this subsidy on account of the increased taxation, but I assure you the increased valuation of property will more than make up the difference.

When you meet a traveler in Kanab City or Los Angeles, he has passed over the Southern Pacific and ask him his impressions of Arizona, he will invariably tell you he saw nothing but sand blizzards, dry and barren mountains and complete desolation and that it is the border land to hades. He will recite the fact that the windows were kept closed to prevent the sun from blinding the travelers. But when the route is changed he will have a different reply and will say it is somewhat mountainous and barren but there is one place in particular which is almost one of those garden and it extends nearly all the way from Tucson to Gila Bend. There they have fruitful orchards, fine cattle and horses, beautiful green pastures and a thriving and contented people with a climate that is almost perfect.

See what a change these one hundred and twenty miles of road would make in the Gila and Salt river valleys. Besides this, a railroad traversing a farming country always adds to its prosperity and wealth. Land that is now held at fifty dollars per acre of unproductive waste, would advance over fifty per cent. on completion of the road and will always be in demand at very handsome figures. It would revolutionize the popular sentiment in the east regarding Arizona and turn the current of immigration this way. Respectfully,

JAS. O. KINCAID.

## The New Court House.

The attention of the board of supervisors has been largely occupied during the past few days with the consideration of matters connected with the proposed new court house.

A form of the bonds was adopted and the lithographed bonds will be furnished by Bancroft & Co., of San Francisco.

All the plans submitted by the several architects for the building were rejected for various good reasons, and were all then referred to a special committee of practical builders for their inspection and recommendation as to proposition, as more closely approaching their ideal than any of the others, with certain changes and modifications which Mr. Creighton will be requested to embody and to furnish full specifications. The feature of placing the jail in a basement, as recommended by all the plans, was declared objectionable, by reason of a want of proper facilities for ventilation and drainage, and it was decided to build the jail walls of stone. The action of the board does not prevent the submission of other plans for consideration as the board is not committed to the acceptance of the modified plan of Mr. Creighton. All plans must be on file before 2 o'clock p. m., November 7th, and a reward of \$100 will be paid for the second choice.

The plans and specifications submitted by Mr. H. R. Leonard were very complete in every detail and handsomely executed, and the elevations present a massive and imposing appearance. Mr. Leonard will prepare a new plan embodying the desired changes.

The question of the location of the court house has not been determined. A petition was circulated yesterday for the selection of the public plaza east of the school house, which will be met by a counter-petition favoring its location upon the higher grounds further to the south.

The Mexican arrested by P. Boscha and J. D. Thomas near Dudleyville, a couple of weeks ago, and still confined in the county jail, is reported to have confessed to his participation in the murder of Cohn, at Nogales, last year. His name is Francisco Rivera, and he is suspected of being one of the men who held up the Casa Grande stage on the 2d instant. His associates at the place are his captives, and are desperate men whom the Mexican settlers of the neighborhood greatly fear. They are always well armed and frequently disappear for several days, presumably upon some errand of mischief. They subjected one of the settlers to the indignity of imprisonment in a well, some time ago, for a fancied affront, and they have a summary way of discouraging any inquiries into their private affairs. The party now in jail is evidently guilty of some grave crime even though his connection with the stage robbery may not be established.

A splendid steam roller flouring mill will be erected at Casa Grande in a very short time. The means are all provided for and the iron erected parts will soon begin the work of rearing the structure. It is an excellent location for a mill, being a convenient shipping point and the natural market for all the grain raised in this valley.

It is intimated that Germany will refuse to recognize Mafafas as king of Samoa.

Blowing Noises.

In the ears, sometimes a roaring, buzzing sound, are caused by catarrh, that exceedingly disagreeable and very common disease. Loss of smell or hearing also result from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which cures by purifying the blood. If you suffer from it, try Hood's Sarsaparilla. It is the great blood purifier.

My wife has been under physicians care for two years, but they could not cure her. She would get some relief while taking prescriptions, but would soon fall back into the same state. I got her a bottle of "The California Remedy," and she was cured. It did her immediate good, and when three bottles had been taken she regained her old accustomed health and spirits and is now as well as ever. Seeing the benefit she derived, I used it for rheumatism with the result that I am now entirely free from the disease with which I had suffered for over a year.

785 Turk street, San Francisco.

## A Valuable Work.

Mr. E. W. Hagerty, of Tempe, visited Florence this week and obtained many orders for the several handsome volumes for which he is agent. Among them is a very entertaining and instructive work by J. W. Buel, entitled "The Story of Man," being a history of the human race from the creation to the present time; their origin and dispersion over the globe; prehistoric man; the lost Atlantis; ages of stone, bronze, iron and steel, etc.

Hagerty Greely very truthfully said: "No man can be truly educated without a knowledge of the human race; and yet where can this knowledge be obtained—the schools do not teach it, and the books which contain it are so voluminous and varied that no one except those who make study a lifetime occupation can afford to read them."

"The Story of Man" makes it possible for every man to possess the knowledge which Mr. Greely declared was essential to all true education, for in its brilliant pages is to be found all the information contained in the varied and voluminous works referred to, condensed and arranged in the most convenient form.

The bronze age was the truly heroic age of the world, and here we find a record of some of the greatest and grandest events in the history of humanity. This was man's first step upward from the slough of ignorance, debasement and dependency into which his sin in Paradise had thrown him, and as the glorious light of intelligence began once more to dawn upon him, he seemed to have stepped into a new world, with all the forces of his nature to reach a higher and better level—nearer to the God who created him.

In this department of "The Story of Man" there is a brilliant blending of romance, legends and startling facts of history, more interesting than the most fascinating novel that was ever written. Here indeed are wonders, and great truths, and splendid recitals for everyone.

The Hon. Wm. E. Gladstone says of this work: "I consider this one of the most valuable books that have been published for years. The subject is one that interests every human being, and I am glad to see it so thoroughly and entertainingly treated by a pen so able as Mr. Buel's. Money spent for this book will be judiciously and wisely invested."

Mr. Hagerty will deliver the work to subscribers at prices ranging from \$4 to \$5 according to style of binding, and may be addressed at Tempe. It is a work that will sell on its merits and should find a place in the library of every family.

A big line of Floor Matting of new and elegant designs has just been received by W. C. Smith & Co. It is the best floor-covering for this climate and special pains were taken in its selection for quality and appearance, while the price is within the reach of all.

A New Road to Pinal.

At a recent session of the board of supervisors Messrs. W. W. Strohn, A. J. Doran and James Brash were appointed a committee to examine the route over the hill above the Reymert mill at De Noen, for a new county road to Pinal. The committee has completed its labors and made its report to the board that a good and practicable road can be built for a moderate sum over the three-fourths of a mile necessary to connect with the road built on the other side by the Reymert company to Pinal, and heavy teams can pass easily over it. The idea is to abandon the Queen Creek road which requires such expensive repairs yearly and which now needs an expenditure of fully a thousand dollars to put it in good traveling condition, with a certainty of its again being washed out by the first heavy rain.

There is another feature in this improvement that will commend itself to the people of Pinal county. The proposed road is six miles shorter from Florence to Pinal than the old route, and the people of this valley can find a good market at the several camps in that direction, while the Mesa City farmers, who have "held almost a monopoly of that trade," will be entirely cut off or compelled to make a long and unprofitable haul to reach the market.

Good roads are one of the most essential features in the progress and development of the country and public money cannot be more judiciously expended than in building convenient thoroughfares. They repay their cost many times over in the increased prosperity of the country.

County Surveyor A. T. Colton has been directed to make a survey of the proposed cut-off and estimates of the cost of its construction.

I was passing through Morgan Co., this state, says Mr. H. G. Lester of Martha, Ky., when I was taken with a running of the bowels and cramping of the stomach. I stopped with Mr. H. M. Elk Lake, who had Chamberlain's Colic, Cholera and Diarrhoea Remedy and fixed me a dose. It relieved me in two minutes. Every family should have this remedy in their home. For sale by Thos. F. Weedon.

To Close on Sundays.

We the undersigned merchants doing business in the town of Florence, Pinal Co., Arizona, hereby mutually agree to close our respective stores on Saturday night, to remain closed until Monday morning, and after November 1st, believing that our interests, as well as our patrons, will not suffer thereby, and in order that our employees may enjoy one full day of rest in each week.

## Board of Supervisors.

OFFICE BOARD OF SUPERVISORS OF PINAL COUNTY, FLORENCE, OCT. 16, 1889.

The Board met pursuant to adjournment. Present Chairman W. C. Smith, Supervisors E. W. Childs, G. W. Campbell, and Wm. E. Guild, Clerk.

Minutes of the last meeting were read and approved.

On motion J. D. Thomas and P. Boscha were instructed to use every exertion in apprehending and securing evidence against parties already arrested for committing the late stage robbery in this county. That in case no conviction is secured the county will pay their actual necessary expenses.

The following demands on the county treasury were taken up and audited—W. C. Smith and G. W. Campbell voting yes and E. W. Childs voting no. The Clerk was instructed to draw warrants for the amounts:

Globe Democrat Publishing Co., advertising proposals for court house and jail bonds \$23 60

Inter Ocean Publishing Co., advertising proposals for court house and jail bonds 21 00

San Francisco Chronicle, advertising proposals for court house and jail bonds 30 00

New York Herald, advertising proposals for court house and jail bonds 44 10

On motion the following demands on the County Treasury were taken up, audited and the Clerk instructed to draw warrants for the several amounts, all voting in the affirmative.

ROAD FUND.

J. C. Woolhous, work on county road \$138 50

GENERAL FUND.

Dickinson & Williams, expenses incurred in pursuing stage robbers 28 00

E. W. Childs voting no on above bill on the grounds that it was not a legal charge; G. W. Campbell and W. C. Smith voting yes.

Thos. H. McEllan, work at river present for \$220 and allowed for 234 00

W. H. Benson, Probate Judge's fees 146 15

Jens Olivas, interpreters fees 2 50

A petition of the citizens of Florence and vicinity asking that a county road be vacated across the S. E. 1/4 of Section 2, Township 5, South Range 2 east, was taken up, and the petition granted, and it was ordered that said county road be vacated.

The petition of the citizens of Dudleyville asking for the appointment of a Justice of the Peace for Dudleyville precinct was taken up, and an motion was referred back to the petitioners for the legal number of signatures.

On motion the petition asking for a road south of Casa Grande was taken from the table and J. F. Mayhew, road overseer, C. Los and F. Jarvis were appointed a committee to examine said road and furnish to the board an estimate of the cost of constructing same.

Report of County Surveyor on Maricopa & Phoenix railroad was taken up, accepted and ordered placed on file.

On motion the Board adjourned until tomorrow at 9 a. m.

Attest Wm. E. GUILD, Clerk.

W. C. SMITH, Chairman.

OFFICE BOARD OF SUPERVISORS OF PINAL COUNTY, FLORENCE, A. T., OCT. 11, 1889.

The Board met pursuant to adjournment. Present Chairman W. C. Smith, Supervisors E. W. Childs, G. W. Campbell, and Wm. E. Guild, Clerk.

Minutes of the last meeting were read and approved.

On motion a committee of three was appointed to examine and report to the Board the probable cost of a road on a fair grade, over the mountain between the Reymert mining company's mill and Pinal, in the vicinity of the present county road. The following gentlemen were appointed on said committee: Jas. Brash, W. W. Strohn and A. J. Doran.

On motion the following demands on the county treasury were taken up, audited and the Clerk instructed to draw warrants for the several amounts:

GENERAL FUND.

J. B. Fitch, Int. fees 10 00

W. E. Guild, telegrams 42 46

John Dunn, jury fees 42 50

Whereas an act entitled "An act to provide for the holding of a convention for the purpose of framing a state constitution, to be submitted to the people for their approval or rejection," provides that the Boards of Supervisors of the different counties of the territory shall, at the regular meeting next preceding the 5th day of November, 1889, appoint inspectors and judges of election.

And whereas no call has been made by the Governor of this territory for the holding of said election, whereof we approve.

And whereas the citizens and tax-payers of this county disapprove of the holding of said election but believing that said act is mandatory upon said board,

It is therefore resolved that we do appoint one inspector and two judges for each precinct in said county for said election.

On motion the following electors were appointed judges of and inspectors for the special election to be held Nov. 5, 1889:

Florence, Precinct No. 1—Geo. W. Brown, inspector; J. H. Stout and Thos. F. Weedon, judges.

Pinal, Precinct No. 2—F. G. Hower, inspector; J. H. Luedke and A. Whitlow, judges.

Silver King, Precinct No. 3—W. H. Merrill, inspector; R. Williams and T. S. Collins, judges.

Riverdale, Precinct No. 4—A. Nieman, inspector; M. Kennedy and D. H. Snyder, judges.

Casa Grande, Precinct No. 5—T. Tomlinson, inspector; M. W. Hart and J. M. Woods, judges.

Dudleyville, Precinct No. 6—Geo. F. Cook, inspector; T. Bates and J. M. Watson, judges.
